

25 YEAR RE-REVIEW

August 8, 1960

STAT

I deeply appreciated your good letter of July 14th, written from the Disarmament Conference in Geneva. I admired your handling of the negotiations and I think the fact that they were broken up by the Soviet as they were, is a tribute to the fact that they probably did not like negotiating with you on the opposite side of the table.

If you are in Washington, give me a call as I shall be here pretty consistently now until the Congressional session is over. If I am in New York, I shall do the same.

Also, many thanks for what you had to say about Bob. I have not had a chance to see him and get his report as he is still vacationing in Switzerland. I am glad he was of some use to you. I hope that he will stay on working with us in a position that would permit him to participate in disarmament meetings as they might occur.

Sincerely,

(Signed) ALLEN W. DULLES

DELEGATION OF THE UNITED STATES OF AMERICA

Disarmament Conference,
American Consulate General,
Geneva, Switzerland
July 14, 1960

Dear Allen:

One of the regrets that I have had on this job, which is now winding up, is that I really had no chance to see you. I did appreciate your telephone call in May on my last day in New York before the abortive Summit.

I am grateful to you for recommending [redacted] He has been a star. I have relied on him with the greatest confidence. It is most important that continuing opportunity be made available to him which will keep his interest and retain his services for the Government.

STAT

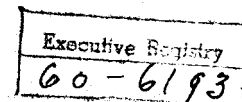

Perhaps when all this quiets down, we can have an evening together.

Best regards,

STAT
